海加·绿色享有未来
HIGHKA · Future in the Green

广东海加绿色新材料有限公司（简称：海加 / HIGHKA）于2014年正式成立，总部位于广东省广州市天河区广东省农科院环艺所，生产基地分布于广东、河北、广西，并在深圳、广州、上海、北京、南宁、海口、厦门设有营销中心。

海加是一家集技术、研发、设计、制造、营销、服务于一体的高新技术企业。营销及服务面向全国、澳洲、非洲、东南亚等海外市场。

海加倡导“绿色享有未来”的理念，带着国外先进的房屋建造理念，进入建筑及房屋市场，并以现代科技、健康、生态、智能、节能建筑集成系统相结合，推出绿色、节能及集成化、模块化、工业化、可循环化的装配式产品及应用系统解决方案。致力于绿色装配式集成房屋、绿色装配式建筑产品及系统应用解决方案的生产制造企业，并专业提供绿色建筑、声学、BIM、装配式建筑技术。

超10多年的行业经验，专注专业于国际品牌酒店的隔声功能装饰性墙体系统解决方案推广与应用。专业研发、匠心制造、专业服务，公司以装配式房屋、墙板系统、天花系统、地板系统、轻钢制造为五大核心主营产品及应用系统。

Guangdong HIGHKA Green New Material Co., Ltd. (HIGHKA for short) was officially established in 2014. It is headquartered in the Guangdong provincial academy of agricultural sciences environmental art institute, Tianhe District, Guangzhou City, Guangdong Province. Its production bases are distributed in Guangdong, Hebei and Guangxi, And in Shenzhen, Guangzhou, Shanghai, Beijing, Nanning, Haikou, Xiamen with marketing centers.

HIGHKA is a high-tech enterprise integrating technology, R & D, design, manufacturing, marketing and service. Marketing and services are oriented to overseas markets such as China, Australia, Africa and Southeast Asia.

HIGHKA advocates the concept of "Green enjoy in the future", enters the construction and housing market with foreign advanced housing construction concept, and combines modern science and technology, health, ecology, intelligence and energy-saving building integrated system to launch green, energy-saving and integrated, modular, industrialized and recyclable assembled products and application system solutions. It is committed to manufacturing green prefabricated integrated houses, green prefabricated building products and system application solutions, and specializes in providing green building, acoustics, Bim and prefabricated building technology.

With more than 10 years of industry experience, we focus on the promotion and application of sound insulation and decorative wall system solutions for international brand hotels. Professional R & D, ingenious manufacturing and professional services. The company's five core products and application systems are prefabricated houses, wallboard systems, ceiling systems, floor systems and light steel manufacturing.

A 品牌优势
Brand Advantage

海加绿色科技，是一家高新技术企业，自2014年成立，历经多年市场考验，品牌已在行业具备一定知名度，得到广大客户的一致好评。

海加拥有专业的设计施工一体化团队、材料生产基地、产品营销品牌等为客户提供全方位的产品解决方案服务！

HIGHKA green technology, a high-tech enterprise, has been established since 2014. After years of market tests, the brand has gained a certain degree of popularity in the industry and won praise from customers.

HIGHKA has a professional design and construction integration team, material production base, product marketing brand, and other customers to provide a full range of product solutions!

B 全自动化自主生产设备，
高产高质量
Automatic production equipment,
high yield and high quality

自主研发的行业领先，自动化程度较高的生产设备，可对产品的标准化、流程化实行严格管控，产品质量好、产能高。

全自动流水线规模化生产，准时按期交货。年生产材料100万标平方米、隔音材料30万平方米以上。

Self-developed industry-leading production equipment with high degree of automation can strictly control the standardization and process of products, with good product quality and high production capacity.

Automatic assembly line scale production, on time delivery. Annual production material 1 million standard square meters, sound insulation material more than 300,000 square meters.

C 国内外权威机构认证，
卓越品质保证
Certification by domestic and foreign
authorities, excellent quality assurance

通过ISO9001：中国环境标志产品认证证书、省级工法证书、SGS等认证具备多项实用新型专利证书，拥有国家防火、环保、声学检测报告达50多种。

自主研发隔声隔音、防火等多项产品专利。

2018年荣获“超高弧形外立面墙体科技创新奖”优秀称号。

The company has passed ISO9001: China environmental marking product certification certificate, provincial work law certificate, SGS and other certifications, and has a number of utility model patent certificates. It has more than 50 kinds of national fire prevention, environmental protection and acoustic testing reports.

Independent research and development of sound insulation, fire protection and other product patents.

In 2018, it won the outstanding title of "technological innovation award of ultra-high arc facade wall".

D 销售网络遍布全球，
服务高效快捷
Sales network around the world,
service efficient and fast

国内广东、广西、海南、北京等省市相继成立子公司，辐射一、二线城市；澳洲、非洲、东南亚地区规划设立办事处，产品20%以上远销海外。

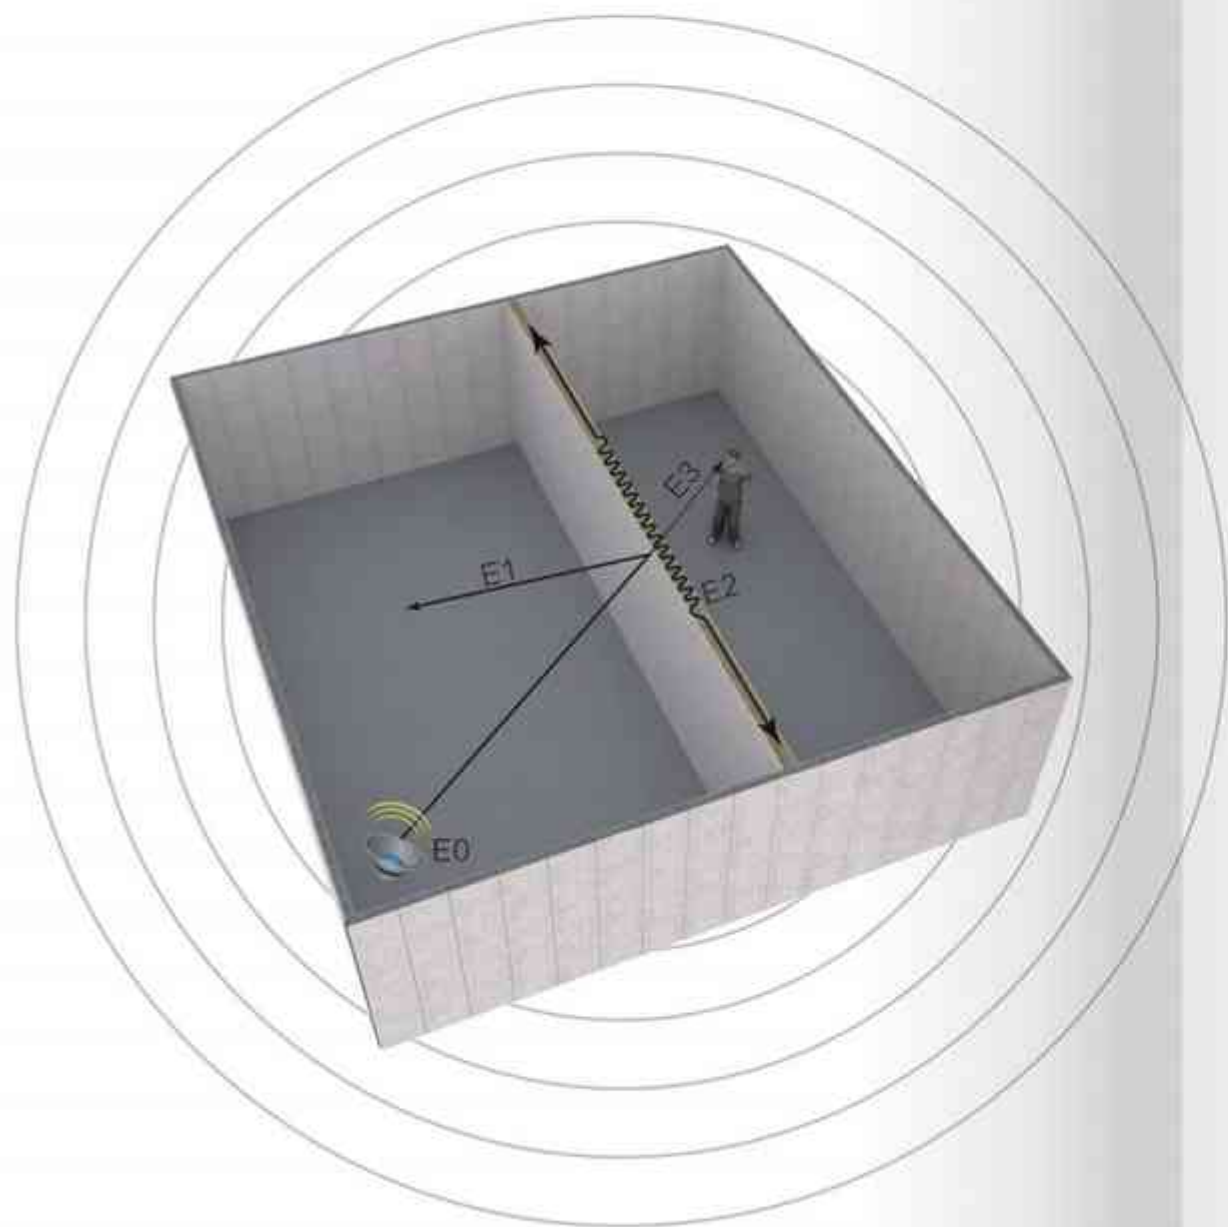

各地区均配备专业及优秀的设计人才及施工团队，服务项目平均每年超百个以上，及时解决客户的问题，一切为客户的利益考虑，按时、按质完成客户的服务需求！

Guangdong, Guangxi, Hainan, Beijing and other provinces and cities have set up subsidiaries, radiating to the first and second tier cities; We plan to set up offices in Australia, Africa and Southeast Asia, and over 20% of our products are exported to overseas markets.

All regions are equipped with professional and excellent design talents and construction teams. The average number of service projects is more than 100 every year. Solve the customer's problems in a timely manner, and complete the customer's service needs on time and with quality in consideration of the customer's interests!

海加功能性装饰墙体系统

HIGHKA FUNCTIONAL DECORATIVE WALL SYSTEM

噪音是全球范围内酒店管理层的共同面对的一个问题，酒店隔音问题成了酒店运营的最头疼问题。而对于住过酒店、外出度假的宾客来说，要想有一个好的入住体验，第一需求是有个安静舒适的睡眠环境。即使酒店功能划分合理完善、内外装修高档、选择材料豪华、配套完善、服务人性化，但若隔音不好，则会大大拉低酒店整体档次，降低客人对酒店的满意度，影响客户再次消费，噪音严重的，甚至直接关系到酒店的生存。

据专业机构的调查，当前星级酒店对隔声不满的投诉占酒店投诉的第一位，约占投诉总量35%，正是由于良好的夜间睡眠对于旅行者有着至关重要的意义，因此，许多旅行搜索网站甚至把“安静指数”加入了酒店的业务评价体系。可以说，确保为宾客提供一个安静的睡眠环境已经成为业内高端酒店的首要任务。

合理的声学设计会增加酒店的舒适度与客户的体验感，而且直接影响星级酒店的评定和收费定价，酒店房间的隔声设计和噪声防治是整个声学设计的重点。

Noise is a problem faced by hotel management around the world, and hotel noise insulation has become the most troublesome problem in hotel operation. For guests who have stayed in hotels and gone on holiday, the first requirement for a good stay is a quiet and comfortable sleeping environment. Even if the function of the hotel is divided into reasonable and perfect, interior and exterior decoration, luxury choice of materials, perfect supporting facilities, humanized service, but if the sound insulation is not good, it will greatly reduce the overall level of the hotel, reduce the satisfaction of guests to the hotel, affect customers' again consumption, noise serious, or even directly related to the survival of the hotel.

According to the survey of professional institutions, the complaints of dissatisfaction with sound insulation of current star hotels accounted for the first hotel complaints, about 35% of the total number of complaints. It is because a good night's sleep for travelers is of vital importance. Therefore, many travel search sites even put the "quiet factor" into the hotel's business evaluation system. It can be said that ensuring a quiet sleeping environment for guests has become a top priority for high-end hotels in the industry.

Reasonable acoustic design will increase the comfort of the hotel and the customer's experience, and directly affect the evaluation and pricing of star hotels. The noise insulation design and noise prevention is the key point of the entire acoustic design.

海加公司拥有超过10年解决声学设计难题的经验，且专注于国际品牌酒店的隔声墙体系统解决方案推广与应用，根据各业态及酒店相关声学标准，并结合众多酒店项目的室内及室外空间隔音墙体系统应用的工程经验，提出对星级酒店内各隔声区域确定相应的声学指标，作为对各专业噪声控制的技术要求，并获得国内外近百个高端酒店项目选用。

海加不仅可以提供专业的高端五星级酒店隔音墙体系统解决方案，同时可以结合酒店的墙体饰面要求，定制酒店装饰风格，满足高端酒店追求空间艺术美感的需求，同时具备现时装配式精装产品功能。

海加丰富的项目经验，将继续为高端酒店提供更好的功能性装饰性墙体系统解决方案和专业的技术服务，让每一位宾客享受静谧舒适的住宿体验，达到返老还童的感受！

HIGHKA has over 10 years experience in acoustic design problem solving, and dedicated professional sound insulation wall system solutions of the international hotel brand popularization and application, according to the formats and hotel related acoustic standard, and combining with many indoor and outdoor space of the hotel project application of sound insulation wall systems engineering experience, put forward on each sound insulation in the star hotel area determine the corresponding acoustic indicator, as the technical requirements of the various professional noise control, and get close to a high-end hotel project at home and abroad to choose.

HIGHKA can not only provide professional solutions for the sound insulation wall system of high-end five-star hotels, but also customize the decoration style of the hotel according to the requirements of the wall facing of the hotel, so as to meet the needs of high-end hotels for the pursuit of artistic beauty of space. At the same time, it has the functions of the current assembly-type decoration products.

HIGHKA's rich project experience will continue to provide better functional decorative wall system solutions and professional technical services for high-end hotels, so that every guest can enjoy a quiet and comfortable accommodation experience and feel rejuvenation.

功能性装饰墙体系统简介

Introduction to the functional decorative wall system

功能性装饰墙体系统，是专为高端星级酒店定制的具备隔声功能及装饰效果一体化的墙体系统，可解决高端酒店对隔声、防火等功能要求，同时，可解决墙体的饰面要求。

Functional decorative wall system is a wall system with sound insulation function and decorative effect, which is customized for high-end star hotels. It can meet the functional requirements of sound insulation and fire prevention of high-end hotels, as well as the decorative requirements of walls.

功能性装饰墙体系统优势

Functional decorative wall system advantages

功能性

Functional

隔音

Sound insulation

隔音量达55-60dB，满足高端五星级酒店的隔音标准。

The sound insulation volume is up to 55-60db, which meets the standard of sound insulation of high-end five-star hotels.

防火

Fireproofing

防火4h，达国家防火要求最高级别。

Fire 4h, up to the highest level of national fire requirements.

安全保障

Security assurance

与建筑同寿，产品寿命100年。

The same life with the building, the product life of 100 years.

绿色施工

Green construction

干作业，减少35%-45%建筑垃圾，而且材料损耗率低，减少了建筑垃圾。

Dry operation, reduce 35%-45% construction waste, and material loss rate is low, reduce construction waste.

开槽便捷

Slot is convenient

可直接开槽埋线管，解决线管处理问题。

Can be directly slotted embedded pipe, to solve the problem of pipe treatment.

吊挂力

Hanging force

可直接打膨胀螺钉，单点吊挂力在1000N以上。

Expansion screw can be set directly with single point hanging force above 1000N.

轻/薄/快

Light / thin / fast

比传统砖墙轻10-30%
厚度比传统墙体薄30-50%
安装速度比传统墙体快10倍，无需砂浆批荡，大大缩短了工期。

It is 10 to 30% lighter than traditional brick wall
The thickness is 30-50% thinner than the traditional wall

The installation speed is 10 times faster than the traditional wall, without the need of mortar batching, greatly shorten the construction period.

降低综合造价

Reduce comprehensive cost

每平方米重量是传统砖墙的1/3-1/5，有效节省了建筑结构的承重荷载，免抹灰批荡，节省至少35%-40%以上综合成本。

58/5000 The weight of each square is 1/3-1/5 of the traditional brick wall, which effectively saves the load-bearing load of the building structure and avoids the whipping of plaster, saving at least 35%-40% of the comprehensive cost.

装饰性

Decoration

饰面效果丰富：

国际设计师选用纹理，有墙布饰面、木饰面、石纹饰面、金属纹等丰富饰面；

饰面绿色环保：

国际环保标准，A1级防火、防水、防霉，0甲醛无气味；

饰面具艺术美感：

进口板面材料，欧洲工艺技术，具备空间艺术美感

可定制：

宽度及高度均可定制，巨幅板面饰面效果，高度尺寸可达3-4米，甚至更高；

饰面装配式安装快速：

免找平、免底板，利用装饰金属线进行板面锁定，比传统硬包安装快2-3倍以上，具备现时装配式精装产品功能自成安装体系。

功能性与装饰性完美组合成快速基建、快速装饰的墙体系统。功能性墙体的平整度为装饰性墙体提供了非常有利的条件，两者结合比一般的隔墙加装饰面的施工速度快5倍以上，施工工序减少、造价降低、使用面积增加、装饰效果提升。

功能性与装饰性的结合，可以达到直接安装快速拼装效果，隔音防火，饰面美观！

Decorative effect is rich:

The international designer chooses the texture, has the wall cloth veneer, the wood veneer, the stone decorative veneer, the metal grain and so on rich decorative veneer

Facing green environmental protection:

International environmental protection standard, grade A1 fire prevention, waterproof, mildew proof, 0 formaldehyde no smell

Artistic aesthetic feeling of acting the role of mask:

Imported panel materials, European technology, with a sense of space art

Can be customized:

The width and height can be customized, large panel finish effect, height size can reach 3-4 meters, or even higher

Facing assembly installation fast:

no leveling, no bottom plate, the use of decorative metal line for plate surface locking, than the traditional hard package installation faster than 2-3 times, with the existing assembly of hardcover product function into its own installation system

Functional and decorative fast perfect combination into infrastructure, decorative wall system, functional wall roughness for decorative wall provides a very favorable condition, than the average of the combination of up to 5 times faster on the surface of the partition wall decoration construction, reduce the construction process and reduce cost, use area increase, and adornment effect.

Functional and decorative combination, can achieve direct installation of rapid assembly effect, sound insulation and fire prevention, decorative beauty!

海加隔声功能墙体系列

Highka sound insulation wall series

设计规范要求：酒店各区域隔音要求

Design specification requirements: hotel area sound insulation requirements

旅馆建筑隔声标准

Standard for sound insulation of hotel buildings

《民用建筑隔声设计规范》GB 50118-2010

《Code for sound insulation design of civil buildings》GB 50118-2010

构件名称 Component name	特级 Super	一级 Level 1	二级 Level 2
客房之间的隔墙、楼板 Partition between guest rooms, floor	>50dB	>45dB	>40dB
客房与走廊之间的隔墙 The partition between the guest room and the hallway	>45dB	>45dB	>40dB
客房外墙(含窗) Exterior wall of guest room (including window)	>40dB	>35dB	>30dB

海加隔声功能墙体系系统

Sea plus sound insulation wall system

功能墙的构成产品主要有海加快优墙板、海加净味FC板、龙骨、隔音棉等。

适用于隔声及吸音要求较高的星级酒店、会议中心、歌剧院等。

The composition of functional wall products are mainly sea speed superior wall board, sea plus clean taste FC board, keel, sound insulation cotton, etc.

Applicable to sound insulation and sound absorption requirements of higher star hotels, conference centers, opera houses.

- ◆ 丰富的产品系统，装配式组合安装
- ◆ 根据项目设计要求和用户需求，定制设计不同的墙体方案
- ◆ 高效隔声效果，隔声量满足55dB以上
- ◆ 耐火极限可达4h以上

- ◆ rich product system, assembly type combination installation
- ◆ according to the project design requirements and use requirements, customize the design of different wall schemes
- ◆ high efficiency sound insulation effect, sound insulation volume to meet more than 55dB
- ◆ the fire resistance limit can reach more than 4h

HK200W 功能墙

HK200W function wall

计权隔声量 ≥ 55 dB，面密度 ≤ 125 kg/m²，A1级不燃，防火4H以上，单点吊挂力达1000N以上，隔音效果极佳，最大程度保证了幽静舒适的体验。

Weighted sound insulation volume ≥ 55 dB, surface density ≤ 125 kg/m², Grade A1 non-combustible, fireproof for more than 4h, single-point hanging power of more than 1000N, excellent sound insulation effect, to ensure the quiet and comfortable experience to the greatest extent.

HK200D 功能墙

HK199D function wall

计权隔声量 ≥ 60 dB，面密度 ≤ 80 kg/m²，A1级不燃，防火4H以上，方便开槽埋线管，隔音效果极佳，最大程度保证了幽静舒适的体验。

The weighted sound insulation quantity is ≥ 60 dB, the surface density is ≤ 80 kg/m², the A1 level is non-combustible, the fire protection is above 4h, convenient for the slotted buried wire pipe, the sound insulation effect is excellent, and the quiet and comfortable experience is guaranteed to the greatest extent.

HK199D 功能墙

HK199D function wall

计权隔声量 ≥ 55 dB，面密度 ≤ 100 kg/m²，A1级不燃，防火4H以上，方便开槽埋线管，隔音效果极佳，最大程度保证了幽静舒适的体验。

Weighted sound insulation ≥ 55 dB, surface density ≤ 100 kg/m², grade A1 non-combustible, fireproof for more than 4h, convenient for slotted buried wire pipe, excellent sound insulation effect, to ensure the quiet and comfortable experience to the greatest extent.

HK187 功能墙

HK187 function wall

计权隔声量 ≥ 55 dB，面密度 ≤ 105.2 kg/m²，A1级不燃，防火4H以上，增加使用面积，而又不失高标准的隔音效果。

Weighted sound insulation ≥ 55 dB, surface density ≤ 105.2 kg/m², Grade A1 non-combustible, fire prevention of more than 4h, increase the area of use, without losing the high standard of sound insulation effect.

HK125 功能墙

HK125 function wall

HK125 功能墙，计权隔声量 ≥ 46 dB，面密度 ≤ 90 kg/m²，防火4H以上；HK100 功能墙，计权隔声量 ≥ 44 dB，面密度 ≤ 80 kg/m²，防火3H以上；A1级不燃，单点吊挂力在1000N以上，施工方便。

HK125 functional wall, weight and sound insulation ≥ 46 dB, surface density ≤ 90 kg/m², fire protection above 4H; HK100 functional wall, weight and sound insulation ≥ 44 dB, surface density ≤ 80 kg/m², fire protection above 3H; A1 class non-combustible, single point hanging force above 1000N, convenient construction.

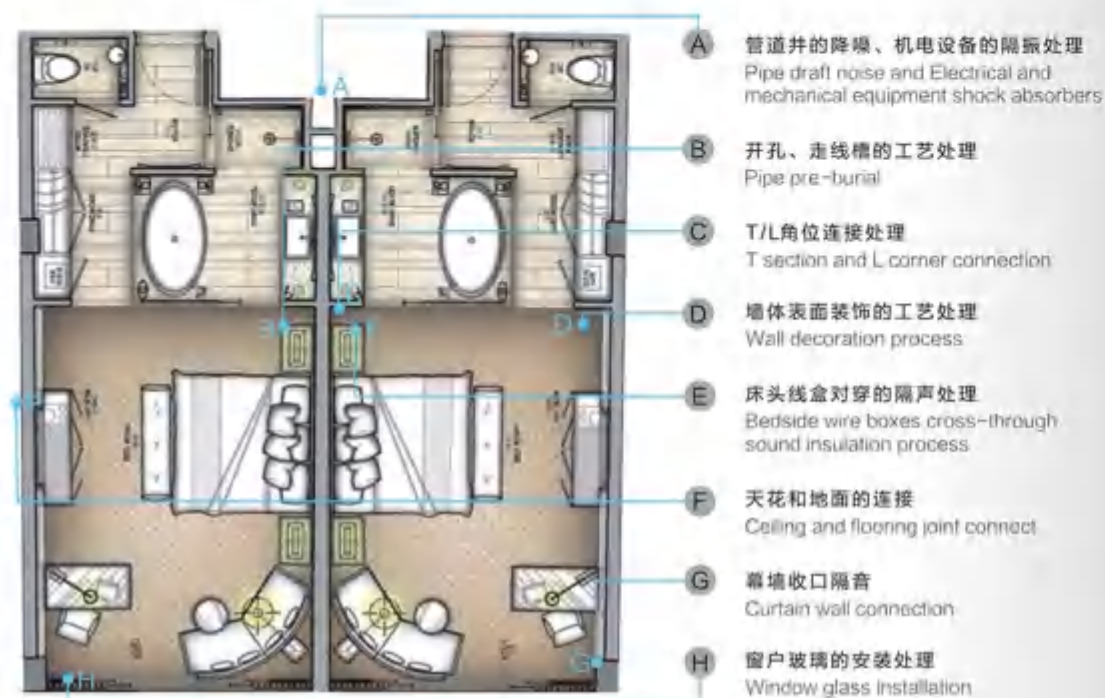

HK100 功能墙

HK100 function wall

酒店墙体装修常见隔声问题

Common sound insulation problems

隔声处理是酒店首要处理的难题之一。在方案设计阶段处理好酒店常见难题，可为酒店开业经营实现经济最大化。

Sound insulation is one of the most important problems in hotel management. To deal with the common problems of the hotel in advance during the project design stage, which can maximize the economy for hotel's opening and operation.

海加隔声功能墙体系统是针对五星级酒店建筑墙体隔声要求研发的隔声体系，解决五星级酒店隔声第一痛点，打造一个完美的五星级酒店，必须土建、精装、机电、声学同步考虑，规避痛点，解决客房一切漏声源，隔绝所有噪声点，确保一次性通过声学验收，保证每一位莅临酒店的贵宾，都能外享都市繁华，内拥静谧时光。

酒店专用隔声系统，
保证解决环境中振动和噪音问题：

- 超高STC隔声墙体系统
- 超高STC天花系统
- 幕墙收口隔音包裹系统钢梁包裹隔音系统
- 楼面撞击结构传声隔音系统

Highka function of sound insulation wall system is aimed at a five-star hotel building wall sound insulation requirements research and development system of sound insulation, sound insulation first pain points, solve the five-star hotel to create a perfect five-star hotels, civil engineering, hardcover, electrical and mechanical, acoustic synchronous consideration, avoid pain points, the solution to all rooms sound leakage, cut off all the noise points, make sure disposable through acoustic acceptance, ensure each distinguished guests to the hotel, can enjoy outside the city, in the quiet time.

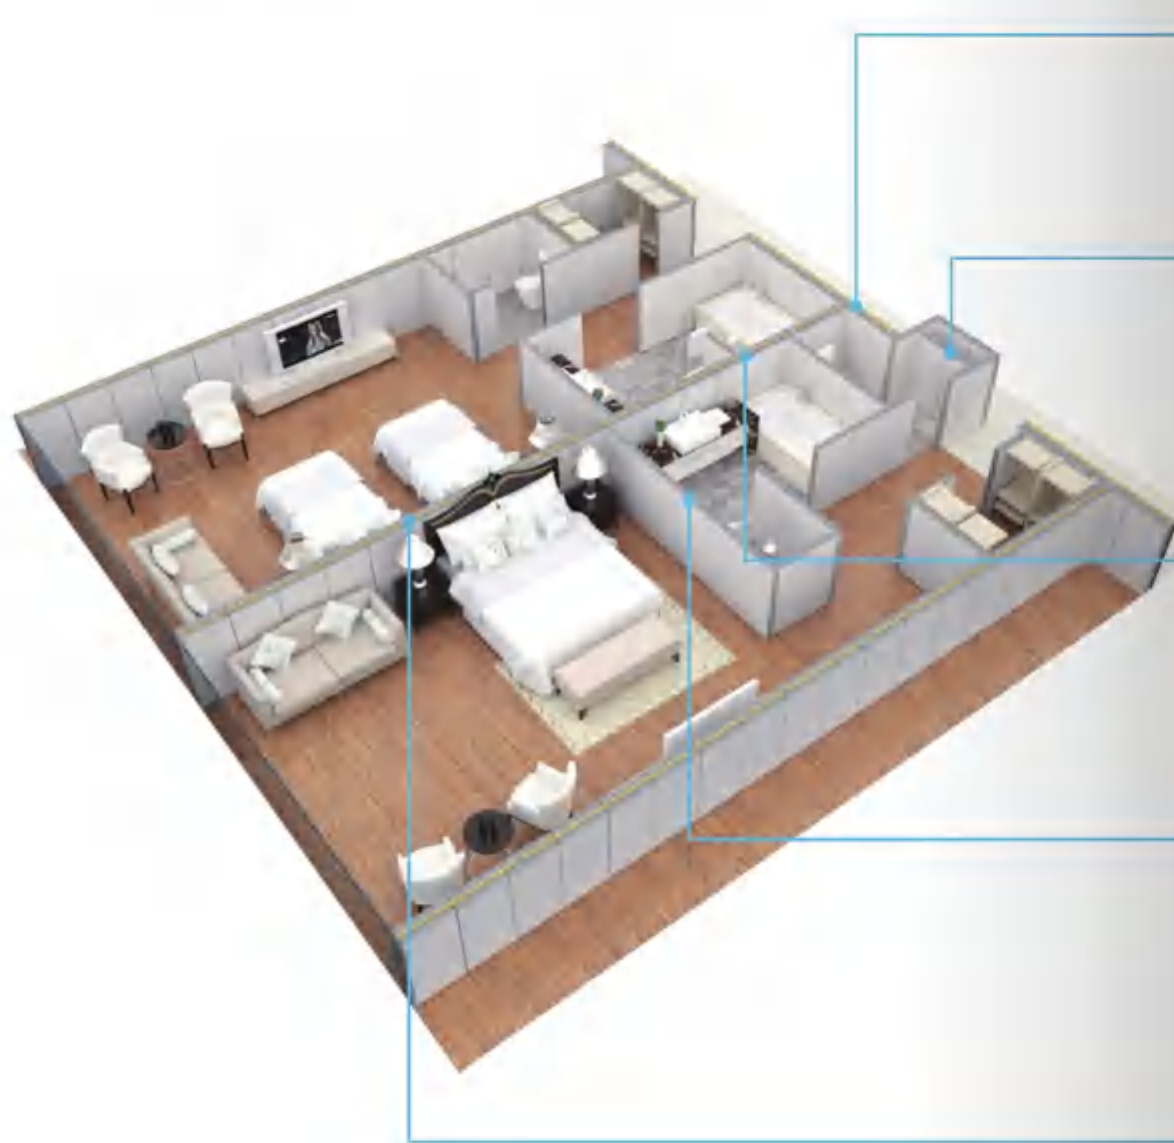

The hotel 's special sound insulation system ensures that vibration and noise problems in the environment are solved:

- Ultra-high STC soundproof wall system.
- Ultra-high STC smallpox system.
- Curtain wall closure soundproof package system steel beam coated soundproof system.
- Sound insulation system for floor impact structure.

海加隔声功能墙体系列应用解决方案

HIGHKA Sound Insulation Function Wall Series Application Solution

1

客房与走廊之间墙体

噪音主要来源：脚步声、说话声等；
特性：走廊空间相对狭小，对省空间需求较大。
参考选用“HK187功能墙”

Wall between guest room and corridor

Main sources of noise: footsteps, voices, etc.
Characteristics: the corridor space is relatively small, the need for space saving is large.
HK187 function wall for reference

2

客房与走廊之间管道井的墙体

噪音主要来源：电流声、维修声；
特性：管道井对施工、吊挂力等要求较高。
参考选用“HK125功能墙”

Wall of pipe well between guest room and corridor

Main sources of noise: current sound, maintenance sound;
Characteristics: the pipe well has high requirements for construction and hanging force.
HK125 function wall for reference

3

洗手间与洗手间的墙体

噪音主要来源：水流声；
特性：洗手间之间的隔声要求高，需防潮，且墙体厚度需与客房间墙体保持一致。
参考选用“HK200功能墙”

Toilet and toilet wall

Main sources of noise: running water;
Characteristics: sound insulation between washrooms is required to be high, damp proof, and wall thickness should be consistent with the wall in the guest room.
HK200 function wall for reference

4

客房与内部洗手间的墙体

噪音主要来源：水流声；
特性：洗手间内部环境潮湿，对防潮要求比较高，且客房内部墙体要求薄些，增加使用面积。
参考选用“HK100功能墙”

Walls of guest rooms and internal washrooms

Main sources of noise: running water;
Characteristics: the lavatory interior environment is damp, the moistureproof request is higher, and the guest room interior wall request is thinner, increases the use area.
HK100 function wall for reference

5

客房与客房之间的墙体

噪音主要来源：电器声、人声等；
特性：客房之间隔声要求最高，声音传播也最直接。
参考选用“HK199功能墙”

Walls between rooms

Main sources of noise: electrical sound, human sound, etc.
Features: rooms between the highest sound insulation requirements, sound transmission is the most direct.
HK199 function wall for reference

隔声功能墙体系列案例分享

SOUND INSULATION FUNCTION WALL CASE SHARING

三亚海棠湾阳光壹酒店

Sanya Haitang Bay Sunshine One Hotel

三亚海棠湾阳光壹酒店 1 Hotel坐落于风光明媚的海棠湾，2020年初悠然启幕，为全球第五家1 Hotel，也是1 Hotels品牌在亚太区的初次绽放。酒店毗邻三亚国际免税城、亚特兰蒂斯水世界及蜈支洲岛等。距凤凰机场约40分钟车程。

灵感始于自然的奢华生活方式品牌1 Hotels，属美国善达屋资本集团旗下的SH酒店集团。

酒店的设计灵感源自岛上的原始美景，辅以可再生素材和本土绿植，将绿色带进室内。酒店配备设计独特的客房、套房及复式别墅，面积自62至1,300平方米不等，装饰大量使用当地可回收材料如火山石、废弃船木、铁皮等。客房内使用回收物料并给予它们第二次生命：木制房卡、纸质衣架、可循环

利用的木制便签本、水杯由回收酒瓶特制而成。客房优选有机棉床品和意大利定制品牌La Bottega沐浴产品。小籽苗儿童俱乐部配备丰富的游乐设施以及各项益智游戏为小朋友们的带来无限欢乐时光。

酒店内设多家餐饮及酒吧，包括甄选各地佳肴的全日餐厅、高端粤菜餐厅以及特色地道面馆等。面积达630平方米的会议场地及4,000平方米的草坪适合举办各式规模的活动与庆典。多个户外泳池为宾客呈献丰富纷呈的闲适体验。达180,000平方米的酒店专属农场—阳光18度距离酒店仅十分钟车程，为酒店供给新鲜蔬果，实现农场到餐桌的特色餐饮体验。

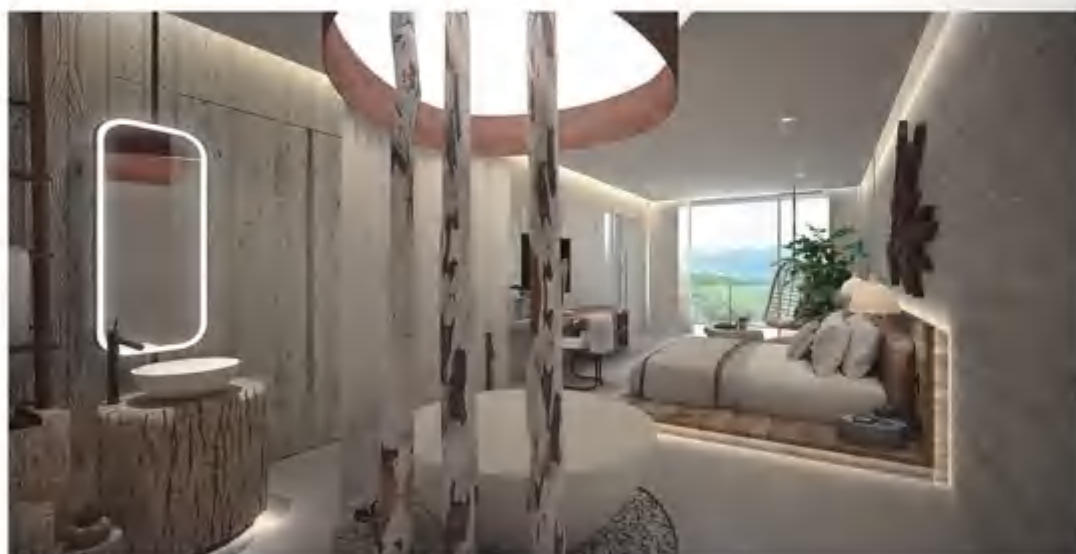

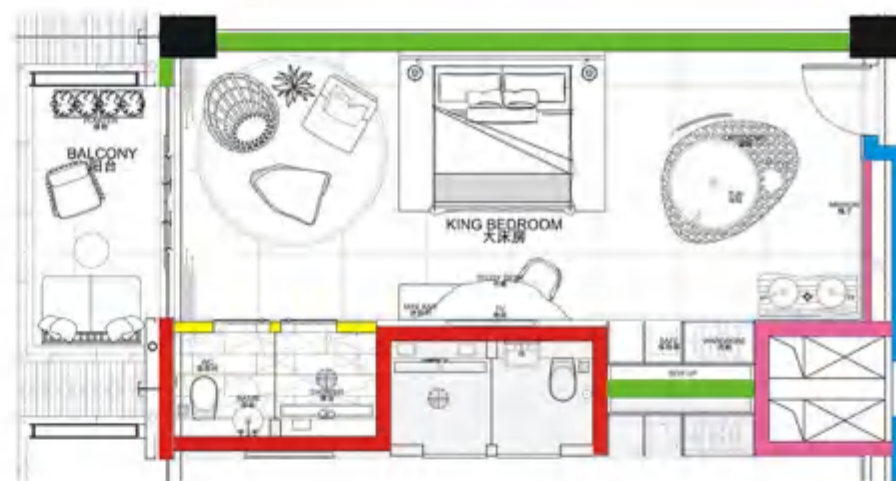

Sanya Haitang Bay Sunshine One Hotel is located in the beautiful Haitang Bay. It is the fifth Hotel in the world and the first time for a Hotel brand to blossom in the Asia-Pacific region. The hotel is adjacent to Sanya International Duty Free City, Atlantis Water World and Wuzhizhou Island. It is about 40 minutes drive from Phoenix Airport.

Inspired by the natural luxury lifestyle brand 1 Hotels, the SH hotel group is part of Starwood Capital Group.

Inspired by the island's pristine beauty, the hotel's design is complemented by renewable materials and native plants that bring green to the interior. The hotel is equipped with uniquely designed guest rooms, suites and duplex villas ranging in size from 62 to 1,300 square meters, decorated with a large number of local recyclable materials such as volcanic stone, abandoned ship wood and iron sheet. Rooms use recycled materials and give them a second life: wooden room CARDS, paper hangers, recyclable wooden

notepads and water cups made from recycled wine bottles. Guest rooms are made with organic cotton bedding and La Bottega bath, a custom made Italian brand. Little Seed Children's Club is equipped with a variety of amusement facilities and puzzle games for children to bring unlimited fun.

The hotel has a number of restaurants and bars, including full-day restaurants to select local delicacies, high-end Cantonese restaurants and specialty noodle restaurants. With 630 square meters of meeting space and 4,000 square meters of lawn, it is suitable for all kinds of activities and celebrations. A variety of outdoor swimming pools offer guests a rich and relaxing experience. With a total area of 180,000 square meters, the hotel's exclusive farm — 18 degrees of sunshine is only 10 minutes away from the hotel by car, providing the hotel with fresh fruits and vegetables and a unique farm-to-table dining experience.

济南凯宾斯基酒店

Jinan Kempinski Hotel

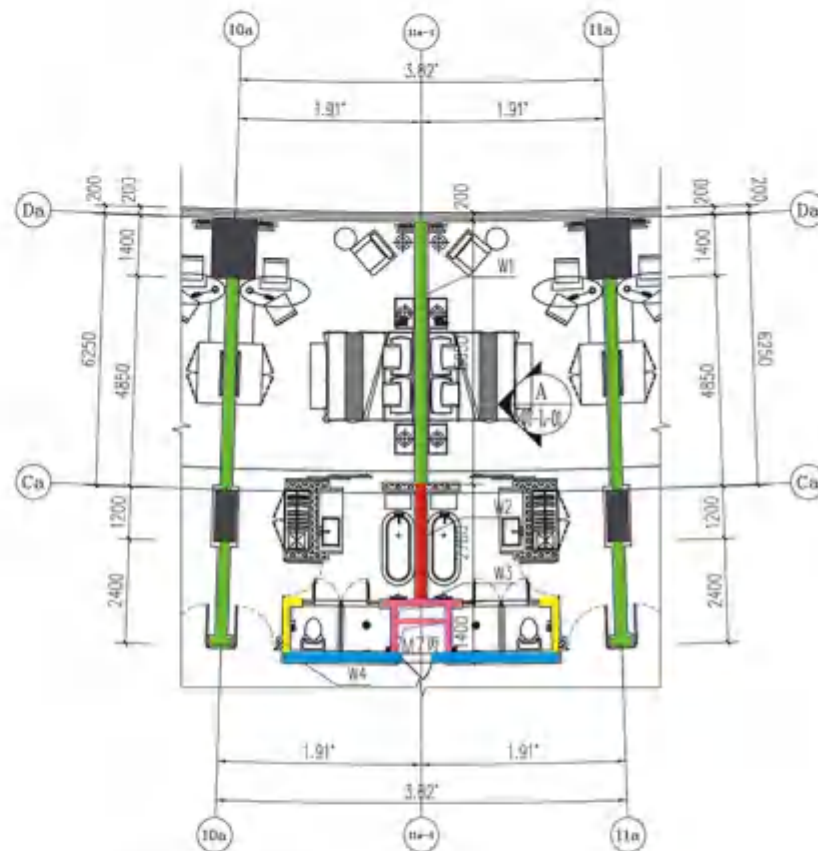

济南凯宾斯基酒店是位于高科技园区中心的汉峪金谷项目的超高层地标建筑内，该建筑主塔总高度为339米，共计73层，其中地上69层，地下4层。汉峪金谷最高楼造型独特，形状就像八方觚器皿，上下宽中间窄。建筑构思源于中国商周时期器皿——觚。由“中国尊”设计团队领衔担纲，融合东方文化与世界商业风向。建筑高耸入云，表现顶天立地之势。以四面体自下旋转而上，顶部逐渐放大构成八方切面，昭示着强大的资本、金融、资源向心力。

凯宾斯基酒店酒店位于51至68层，300间客房和套房将饱览济南城市景观。酒店将提供国际多元美食，包括全日制餐厅，中餐厅，特色餐厅，美食廊和大堂酒廊。

Kempinski jinan hotel is located in the high-tech park center of the han yu jin valley project in the super-high-rise landmark building, the main tower of the building is 339 meters high, a total of 73 floors, including 69 above ground, 4 underground. The highest building in hanyu golden valley has a unique shape, which is like a double-sided gu vessel with a wide upper and lower width and a narrow middle. The architectural concept originated from gu, a vessel used in the shang and zhou dynasties. Led by the "China zun" design team, the integration of eastern culture and world business trends. Building towering into the clouds, the performance of the indomitable potential. With the tetrahedron from the bottom of the rotation and up, the top gradually enlarged to form the octagon section, indicating a strong capital, financial, resources centripetal force.

The kempinski hotel is located on the 51-68 floors, with 300 rooms and suites that will offer views of jinan city. The hotel will offer a variety of international cuisines, including full-time restaurant, Chinese restaurant, specialty restaurant, food lounge and lobby lounge.

三亚阳光金融广场凯悦嘉轩酒店

Sanya Hyatt Hotel Project

设计沿袭凯悦嘉轩年轻时尚、商务休闲的品牌理念，汲取三亚文化特色视觉符号，整体造型将动感的“波浪”引入静止的空间。在同样充满变化的异形建筑体内延续并展开海洋絮语，唤醒商旅时间的奇妙遐想。海洋、沙滩、自然森林等意象被运用到不同区域的家具陈设中，柔美鲜艳的色彩和独特舒适的材质纹理调合出一个活色生香的体验场景，激荡着温润人心的滨海城市之歌。

The design follows the brand concept of young fashion, business and leisure of Hyatt Jiaxuan, captures the visual symbols of Sanya culture, introduces the dynamic "wave" into the static space in the overall shape, continues and unfolds the marine catchwords in the same changing alien building, and wakes up the wonderful reverie during business travel. Ocean, beach, natural forest and other images are used in furniture furnishings in different areas. Soft and bright colors and unique and comfortable texture combine to create a vivid experience scene, stirring the warm coastal city song.

三亚安达仕酒店

Andaz hotel sanya

三亚安达仕酒店位于太阳湾旅游度假区，亚龙湾国家旅游度假区西南部，总建筑面积42940.70；其中：安达仕酒店34654.6；安达仕别墅3456；安达仕村4032.6；水上运动中心797.0。同样由安缇，LV白马御用设计师Jean-Michel Gathy匠心打造，与他赋予柏悦“海边私人府邸”设计理念不同，安达仕将以“海滨村落”的形式散布。这里没有真正意义的大堂，200多间客房与别墅的入住者就是这个海滨村落的“居民”，酒店内部更是一个自给自足的小世界，全球美食，商场，银行，医院，健身设施等一应俱全。

Andaz sanya hotel is located in the southwest of the yalong bay national tourism resort and the sun bay tourist resort, with a total construction area of 42940.70 square meters, including: andaz hotel 34654.6; Andaz villa 3456; Andaz village 4032.6; Aquatics centre 797.0. Also created by amant, LV white horse designer jean-michel Gathy, andaz will be distributed in the form of "seaside villages", different from the design concept he gave to park hyatt's "seaside private residence". There is no lobby in the true sense of the word, more than 200 guest rooms and villas are the residents of this seaside village, the hotel is a self-sufficient inside the small world, global food, shopping malls, Banks, hospitals, fitness facilities and so on.

三大技术 特点及优势

The three major technology
Features and advantages

1

冷压覆膜

Cold laminating

冷压覆膜产品采用进口工艺法国环保胶水覆膜而成，饰面纹理丰富，逼真，有布纹、木纹、金属纹等。具有防火、防水、防霉、环保、易洁等性能。

The cold pressing film covering products adopt the import craft French environmental protection glue film covering and become, the facing texture is rich, the lifelike, has the cloth grain, the wood grain, the metal grain and so on. With fire, waterproof, mildew, environmental protection, easy to clean and other properties.

款式：布纹、木纹、绒面、金属纹、纯色

规格：1220X2440、1220X3~4000

厚度：6/8/12mm

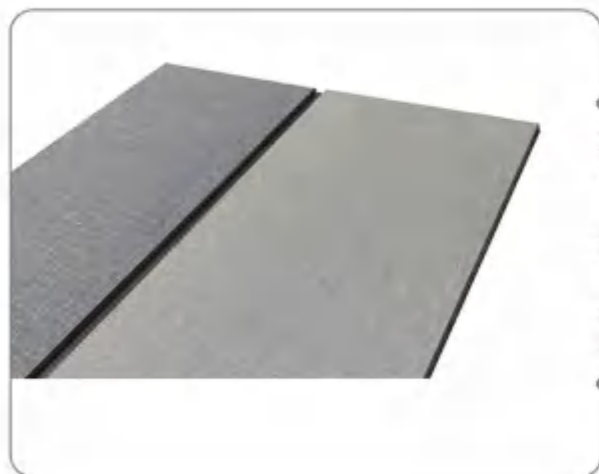

性能：防火、防水、防霉、环保、易洁

Style: cloth grain, wood grain, suede, metal grain, solid color

Specification: 1220X2440, 1220X3~4000

Thickness: 6 / 8 / 12mm

Performance: fire, waterproof, mildew, environmental protection, easy to clean

表面处理：墙纸膜
Surface treatment: wallpaper film

周边处理：包覆墙纸膜
Peripheral treatment: covering wallpaper film

基材：海加净味FC板
Substrate: HGHKA clean taste FC board

2

墙布硬包

Wall cloth bag

墙布硬包产品采用进口工艺法国环保胶水机器压贴而成，饰面纹理丰富，质感强，手感好，品质高档。具有防火、防水、防霉、环保等性能。

The wall cloth hard package product adopts the import craft French environmental protection glue machine to press to stick and become, the decorative surface texture is rich, the simple sense is strong, the handle is good, the quality is high-grade. It is fireproof, waterproof, mildew proof and environmental protection.

款式：布纹、肌理

规格：1220X2440、1220X3~4000

厚度：6/8/12mm

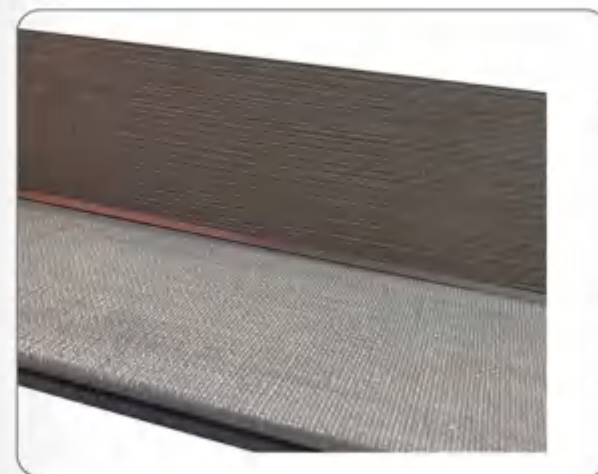

性能：防火、防水、防霉、环保

Style: cloth grain, texture

Specification: 1220 X 2440, 1220 X 3 ~ 4000

Thickness: 6 / 8 / 12 mm

Performance: fire, waterproof, mildew - proof, environmental protection

保护层：透明膜
Protective layer: transparent film

表面处理：墙布
Surface treatment: wall cloth

海加提供的服务

SERVICES PROVIDED BY HIGHKA

- 01 整体系统解决方案**
紧贴客户需求, 提供高性价比的整体系统服务方案。
- 02 深化系统设计**
根据应用方案进行深化设计, 使产品应用在整体化、标准化、可循环化得到实施, 绿色低碳设计。
- 03 工厂工业化定制**
现代工业化生产、标准化产品、品质保证、也可根据项目要求定制特殊尺寸。
- 04 模块化安装施工**
装配式、干作业、无粉尘、机械化施工和管理科学化, 施工高效快捷。
- 05 技术支持**
提供技术集成、工业链接技术、系统技术等。
- 06 服务保障**
国际化质量体系保障、行业技术标准验收、星级服务标准。

Whole System Solutions
Provide high cost-effective whole system service solutions close to customer needs.

Deepening System Design
Deepen design depending on applications to achieve integration, standardization and cycling of product application. The design is green and low-carbon.

Factories' Industrialization Customization
modern industrial production, standardized products, quality assurance, Special sizes can be customized according to project requirements.

Modularization of Installation and Construction
Fabricated, dry operation, no dust, mechanical construction and scientific management, fast and efficient construction.

Technical Support
Provide technical integration, industrial link technology, system technology and so on.

Service Guarantee
International quality system guarantee, industry technical standards of acceptance, star service standard.
